

# Unified Communications SURVEY

Growth and Income

Exclusive Research from CIO magazine

25% 25%

### **EXECUTIVE SUMMARY**

Early Unified Communications Adopters Cite Improvements to Productivity & Information Delivery Productivity gains and improved response time are among the greatest benefits of unified communications, according to a recent survey by CIO magazine. Among the 32 percent of IT buyers surveyed running unified communications solutions, increased productivity (64 percent) and faster response time and delivery of information (50 percent) are most frequently cited as major benefits. The survey, conducted in July, 2009 across 413 CIO.com visitors involved in technology purchases at their organizations, also finds that 35 percent of IT buyers are planning to implement unified communications within the next five years (20 percent have no plans to implement unified communications and 13 percent are still undecided).

Unified Messaging, Desktop Videoconferencing, Telepresence Top Technologies of Interest IT buyers most frequently cite unified messaging, desktop videoconferencing and telepresence as technologies they are actively researching or have on their radar screens. VoIP (27 percent), corporate videoconferencing (25 percent) and IP telephony (25 percent) are the most frequently cited unified communications technologies slated for upgrades in the coming year.

| Unified Communications Technologies of Interest                         | Percent |
|---|---------|
| Unified messaging (e.g., email/voicemail/instant messaging integration) | 47%     |
| Desktop videoconferencing   | 46%     |
| Telepresence technology   | 45%     |
| Cellular/Wi-Fi integration  | 43%     |
| Corporate videoconferencing   | 37%     |
| Speech recognition  | 35%     |
| IP Telephony  | 34%     |
| VoIP  | 32%     |
| Smart phones  | 30%     |

### **Ease of Use Critical Factor for Unified Communications Implementation**

Ease of use (79 percent) is overwhelmingly cited as a critical factor when deciding to implement unified communications solutions followed by ROI (57 percent), level of service (54 percent) and price (51 percent). When it comes to driving unified communications strategy, half of IT buyers surveyed say the CIO is primarily responsible while roughly one in five say responsibility falls with senior non-IT management (9 percent) or line of business owners (9 percent). Only 12 percent of respondents have a team representing various business functions (6 percent) or a dedicated product champion (6 percent) driving unified communication strategy at their organizations.

### **METHODOLOGY**

The CIO Unified Communications survey was conducted among 413 CIO.com visitors involved in technology purchases at their organizations between July 23 and July 29 with the objective of measuring attitudes towards unified communications technologies and usage in the enterprise. A broad range of industries are represented including high tech, telecom & utilities (22 percent), government & nonprofits including education (15 percent), manufacturing (14 percent), financial services (14 percent), legal, consulting, real estate services (12 percent) and healthcare (8 percent). Company size distribution is as follows: <\$100 million: 26 percent, \$100 million - \$999.9 million: 21 percent, \$1 billion or more: 35 percent, not applicable/non-profit: 9 percent (9 percent of respondents were unsure). The margin of error on a sample size of 413 is +/- 4.8 percent. Percents on questions where respondents could select only one answer may not sum to 100 due to rounding. Not every respondent answered every question.

## **RESULTS BY QUESTION**

| In which of the following ways are you involved in the purchase process for IT products and services? | Percent |
|---|---------|
| Any involvement (net)   | 100%    |
| Determine need  | 61.3%   |
| Determine requirements  | 57.1%   |
| Evaluate  | 63.7%   |
| Sell internally   | 30.5%   |
| Recommend and select vendors  | 55.9%   |
| Approve/authorize   | 44.6%   |

| Is your organization currently using or planning to implement unified communications solutions (e.g., a set of products providing the same user interface and experience across various types of devices and media)? | Percent |
|--|---------|
| Currently using/running  | 32.2%   |
| Planning to implement within one year  | 19.6%   |
| Planning to implement within 1-3 years   | 11.1%   |
| Planning to implement within 3-5 years   | 4.1%    |
| No plans to implement  | 20.1%   |
| Not sure   | 12.8%   |

| You indicated your organization is currently using or planning to implement unified communications solutions. How many users do/will these solutions support?  (base: among those running or planning to implement unified communications solutions) | Percent |
|--|---------|
| 20,000 or more   | 15.2%   |
| 10,000 - 19,999  | 7.9%    |
| 7,500 - 9,999  | 3.2%    |
| 5,000 - 7,499  | 3.6%    |
| 2,500 - 4,999  | 9.7%    |
| 1,000 - 2,499  | 14.8%   |
| 500 – 999  | 12.3%   |
| 100 – 499  | 19.9%   |
| 10 – 99  | 11.2%   |
| Less than 10   | 1.8%    |
| Mean number of users   | 5,536   |
| Not sure   | 0.4%    |

| Who is primarily responsible for driving unified communications strategy at your organization? (select one) | Percent |
|---|---------|
| Senior IT management (e.g., CIO, VP IS/IT)  | 49.8%   |
| No individual or group at this time - waiting to see how it evolves   | 14.6%   |
| Senior non-IT management (e.g., CEO, CFO, COO)  | 9.2%    |
| Line of business owners   | 8.7%    |
| Unified communications team representing various business functions   | 6.1%    |
| Dedicated unified communications champion   | 5.6%    |
| Not sure  | 6.1%    |

| Which option best describes your plans for each of the following technologies in the next 12 months (select one only) | On My<br>Radar | Actively<br>Researching | Currently<br>Implementing | Upgrading/<br>Refining | Not<br>Interested |
|---|----------------|-------------------------|---------------------------|------------------------|-------------------|
