

# ITT'S SINGLE-POINT PRODUCT DATA VISION

ITT Fluid Technology uses product life-cycle management tools to create what it calls its "single source of product data vision."  
In this example, ITT is able to develop a product model by integrating data that exists in many different formats sourced from multiple groups across the enterprise.

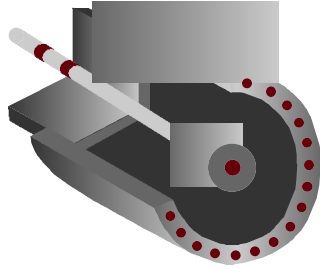

## MANUFACTURING

### SAMPLE FILES:

- Base plate costing.doc
- Casting vendor pricing.doc
- Bolt price sheet.doc
- Housingcosts.doc

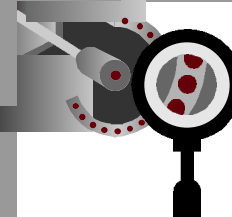

## VIRTUAL 3-D PRODUCT MODEL

## PRODUCT TESTING

### SAMPLE FILES:

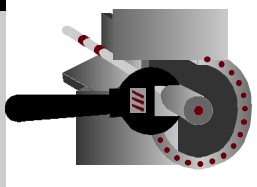

- Analysis data.doc
- Testing specs.doc
- Vendor approval.mpt
